**Subject:** April projects

Rick,

With April fast approaching, I just wanted to see where we are at. Have you received final approval for the Raton Basin sampling event? And, traditionally, we have analyzed samples from Pavillion in April as well. Will that sampling event be occurring?

Thank you,

Jesse

**Subject:** Raton Basin HF sampling

Hello Jesse - we are planning on a sampling event in the Raton Basin over the first week in April to support the national HF study. We anticipate 33 samples for DRO, GRO, and SVOCs.

This trip has not received final approval, so I suppose this could change, but I wanted to give you as much advance warning as possible. Let me know if you have any questions. Thanks.

Rick
